TEMPLES Sun God

Surya, the sun god, the giver of life and light, has been worshiped as an inexhaustible source of energy in India and elsewhere since ancient times. Explore this tradition at the Abodes of Surya, www.templenet.com/surya.html. Here you will learn that Surya is a Deity image found in many temples dedicated to Siva and that many other temples in South India were built so that the sun's

rays penetrate the inner sanctum on auspicious days of the year. Click on Legends to read stories on Surya, such as the initiation of Lord Rama into Sun worship by Sage Agastya. The site includes detailed history and pictures of temples, such as the Konark Sun Temple and the Modhera Sun Temple, both well-known tourist attractions in India. There are also links to several other ancient sun temples in places such as Pakistan, Egypt and Central America..

Hindu Art Online

You may have seen the beautiful art in Himalayan Academy's books such as Dancing with Siva and Merging with Siva and wondered what the paintings look like in color--even, perhaps, on your wall. Now you can find out at www.himalayanacademy.com/art_sale/. Here you can order archival quality prints of these paintings in different sizes and on various materials, including canvas. Or

you can purchase a digital version. The art was commissioned from three artists, two in South India--S. Rajam and A. Manivelu--and one in Bali, I Wayan Marya..
